

Microsoft Teams & Google Classroom with your Xbox or PlayStation

Microsoft Teams and Google Classroom can be opened on your Xbox and PlayStation and therefore on your TV.

There isn't an app that you can add to your consoles. Instead, you are going to have to use the built-in browsers that come on the two devices.

On Xbox, it is Microsoft Edge. On the PlayStation, it is the 'www' browser.

You will probably know how to find the browsers on your console, but if not, there is a search function you can access on the home screen.

Once the browser has been opened:

1. Type in 'Microsoft Teams' or 'Google Classroom'
2. A prompt for signing in will appear
3. Type in your log in details.
4. You're now ready to go

A controller can be used to navigate round the platforms as you normally would do on a computer.

You can now watch live lessons on your TV!
